Re: Portland Harbor Superfund Site--Supplemental 104(e) Response of Beazer East, Inc.

Dear Ms. Koch:

I am writing on behalf of Beazer East, Inc ("Beazer"). On or about August 15, 2008, Beazer submitted a response to USEPA's CERCLA Section 104(e) Information Request related to the Portland Harbor Superfund Site. It has come to Beazer's attention that certain statements in Beazer's response were inaccurate, particularly with respect to Beazer's relationship with the Time Oil Site between 1967 and 1971. Beazer's response stated that Beazer's customer relationship with Time Oil began in 1967. In fact, Beazer had no relationship of any kind with the Time Oil Site until December 1971, at which point it became a customer of Time Oil's toll formulation services. Beazer is enclosing herewith both "red-lined" and "clean" versions of its Supplemental 104(e) Response, correcting statements reflecting the above-referenced inaccuracy.

Please call me with any questions.

Very truly yours,

Anthony G. Hopp
